

## NASUAD 2014 National HCBS Conference

# Disaster Preparedness: A Multi-Faceted Approach to Planning

September 17, 2014

## Panel

- **Michael Luers**, Assistant Director, Ohio Department of Aging
  - activities and initiatives on disaster preparedness and response in Ohio
- **Kristen P. Finne**, Senior Policy Analyst,
  - HHS/Office of the Assistant Secretary for Preparedness and Response (ASPR)
  - Speak on HHS At-Risk Resiliency Initiative--Using federal Medicare data and mapping to advance emergency planning and response for electricity-dependent at-risk populations

# Current U.S. Older Adult Population Health Realities

- **Approximately 50% of the 65+ older adult population have (2) or more chronic health problems which increase their vulnerability**
- **Many older adults may require critical or substantial health care services**
- **Many require 4-8 or more prescription over-the-counter drugs and rely on others for them**
- **42% of older adults have functional limitations and may need assistance**

# Where and How Older Adults Live in the U.S. Continues to Change

- More older adults live in their own homes within their communities than in nursing homes
- Many older adults living in communities have and require interdependent care-giving systems and/or arrangements
- The older adult trend continue to change as “Baby Boomers” turn 65

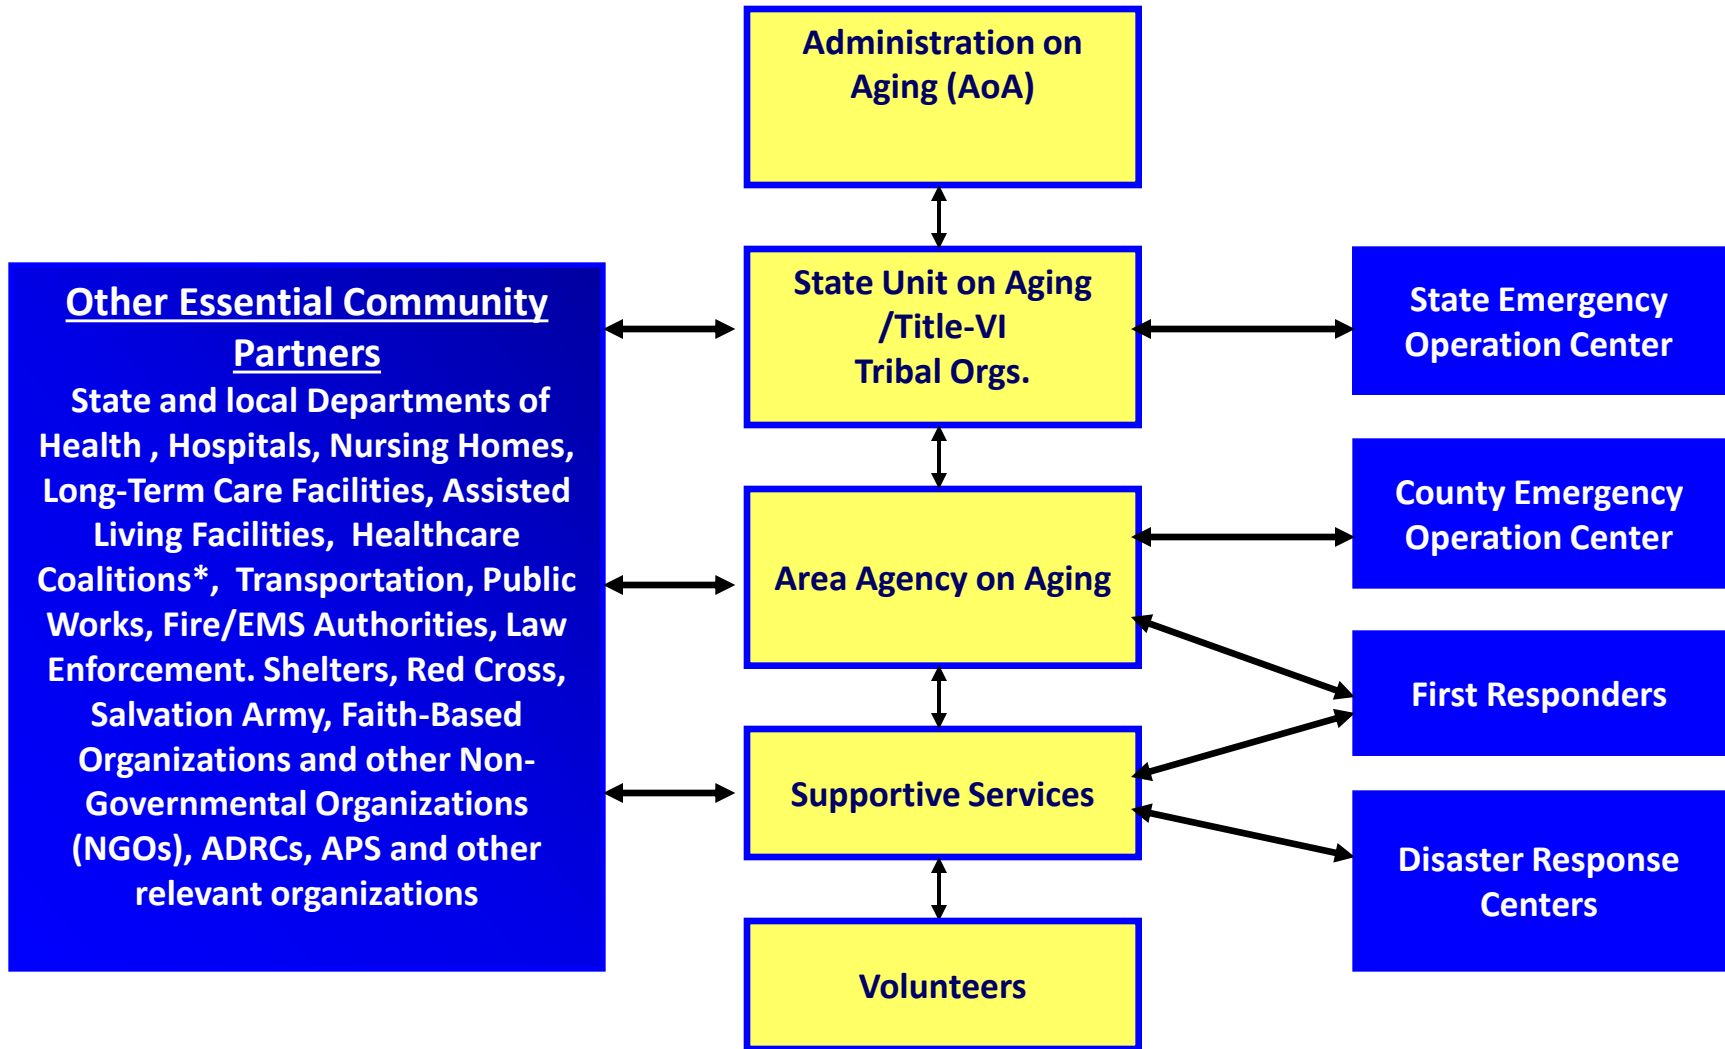

## Disasters: What We Know

- **Disasters can happen at anytime, anywhere and vary in magnitude**
  - Presidential disaster declarations have happened in nearly every state and for some states several times (*e.g. hurricanes, floods, tornadoes, forest fires, etc.*)
- **Resilient individuals, facilities and communities result when a “whole of community” and “all hazards” preparedness and response approach is adopted**

# Older Adult Preparedness and Response Essential Partnerships and Collaborations

# Planning Activities and Best Practices from the Field

- **Weekly updated list of all clients on power -dependent life support (e.g. home dialysis, breathing machines) devices**
- **Procedures to contact clients with functional needs/disabilities prior to and during disasters to check on their well being and identify unmet needs**
- **Require annual disaster preparedness trainings in senior centers, meal sites and other older adult facilities**
- **Promote in-home client and family caregiver disaster preparedness training and preparedness checklist use (e.g. CMS)**
- **Actively advocate for their clients by:**
  - Participating in emergency planning and plan development activities
  - Fostering/participating in partnerships
  - Promoting/participating in preparedness training and exercises

# Essential Building Blocks of Older Adult Disaster Preparedness Planning

- **Promote Individual and Caregiver Preparedness**
  - *“Preparedness begins at home and extends to the community”*
  - Cultivate awareness of preparedness tools (e.g. CMS checklists) to help individuals anticipate their needs and prepare and identify redundancies for assistance
- **Emergency Planning and Emergency Plans**
  - *“Community resource assumptions can result in critical response failures”*
  - Emergency planning and plans **MUST** be consistently reviewed, updated and must **include essential redundancies** (e.g. transportation, emergency power)
- **Establish and Foster Partnerships**
  - *“A disaster isn’t the time to be handing out business cards--Take a whole of community and all hazards approach to planning”*
  - Engage partners and foster development of partnerships and healthcare coalitions to ensure emergency plan and response alignment and integration at all levels (e.g., facility, community, State/local agency)

# Essential Building Blocks of Older Adult & People with Disabilities Preparedness Planning

- **Support and Participate in Preparedness Training**
  - *“Knowledge is power during a response”*
  - Require staff to know the critical role they fulfill as an individual and apart of a broader response team so they are empowered and ready to respond
- **Promote and Participate in Exercises at All Levels**
  - *“Cultivate success—practice—to be ready on game-day”*
  - Test the teams knowledge and ability to integrate during a response
  - Provides a platform for community partner feedback regarding planning gaps, best practices and other preparedness opportunities

# Preparedness:

## Latest Advances, Best Practices and Resources

- **Social Media Tools:**

- Apps: FEMA, bReddi
- Facebook, Twitter: ASPR-sponsored [nowtrending.hhs.gov](http://nowtrending.hhs.gov)
- Widgets: HHS Emergency Preparedness Resources Widget
- YouTube: US Public Health and Medical Services Support

- **Emergency Preparedness Checklists & Information:**

- CMS Emergency Preparedness Checklists for individuals and facilities
- ACL National Family Caregiver Support Program-Just in Case Emergency Readiness for Older Adults and Caregivers
- Ready.gov

- **Disaster Hotline:**

- SAMHSA Disaster Distress Hotline 1-800-985-5990 or text “TalkWithUs” to 66746

# America's PrepareAthon!

- **Connect with peers including access & functional needs community**
- **View or post events**
- **<http://www.community.fema.gov/connect.ti/AmericasPrepareathon/view?objectId=3221328>**
- **September is National Preparedness Month**

Disaster Preparedness: A Multi-Faceted  
Approach to Planning

2014 National HCBS Conference  
September 17, 2014

# State Emergency Operations Center

Built and activated in 1994 at a cost of \$12.9 million, the Ohio Emergency Operations Center/Joint Dispatch Facility enhances the state's capability to respond to disasters and emergencies.

# From ODA's Station at the SEOC

# Area Agencies on Aging

- Maintain a presence at the emergency operations centers and/or disaster recovery centers, either in-person or by providing contact numbers and resource materials.
- Help older disaster survivors establish eligibility and complete applications for disaster relief services and disaster assistance programs.
