Supporting Choice. Managing Costs.™

What is Self-Directed Supports?

- Self-directed supports (SDS) is an option for service delivery for individuals, who live in their own private residence or that of their family member & who wish to exercise more choice, control and authority over their waiver supports. SDS is firmly grounded in the principles of self-determination.

Where did this all begin?

- 👤 1993 Original Proposal to the Robert Wood Johnson Foundation.

“If individuals and families have control of the resources, quality will go up and cost will go down.”

Thomas Nerney & James Conroy

Self-Determination Principles

- 🕒 **Freedom:** Individuals will live a meaningful life in the community and make choices about their lives.
- 🕒 **Authority:** Individuals will have meaningful control over a set amount of dollars that can be used to build the supports that they need by purchasing only what is needed and paying for what is received.
- 🕒 **Support:** Individuals will have support to organize resources in ways that are life enhancing and assist them in reaching their dreams and goals. Individuals have a circle of supports made up of family, friends and both paid and unpaid supports.
- 🕒 **Responsibility:** Individuals assume responsibility for giving back to their community, for seeking employment, and for developing unique gifts and talents
- 🕒 **Confirmation:** Individuals are recognized for who they are and what they can contribute, having a leadership role in developing policies that affect their lives and helping other reach success

Self-Directed Supports

SDS is based on the premise that the individual and their representative know best about their needs and how to address those needs.

The individual must be empowered to make decisions about the services they receive, including having choice and control over the type of supports they receive, who provides the supports and when and where the supports are delivered.

SDS in a Changing Environment- CMS

CMS Announces New Medicaid Integrity Efforts

eligibility oversight, and stricter enforcement of state compliance with federal rules.

The Centers for Medicare & Medicaid Services (CMS) has announced new initiatives designed to improve Medicaid program integrity through greater transparency and accountability, strengthened data, and innovative and robust analytic tools. The initiatives include stronger audit functions, enhanced oversight of state contracts with private insurance companies, increased beneficiary

MISSOURI DEPARTMENT OF MENTAL HEALTH

SDS in a Changing Environment- GOP Health Policy Brief

Modernizing and Strengthening Medicaid to Protect the Most Vulnerable

OBAMACARE REPEAL AND REPLACE

Policy Brief and Resources

The Medicaid program today is a critical lifeline for some of our nation's most vulnerable patients, as the program provides health care for children, pregnant mothers, the elderly, the blind, and the disabled. Medicaid currently covers nearly 72 million Americans—more than Medicare — and up to 98 million may be covered at any one point in a given year.

*But today, the Medicaid safety net is under strain and not serving patients as well as it should. **Many state Medicaid programs suffer from significant waste, fraud, and abuse, due to failures in state and federal oversight.***

SDS in a Changing Environment- OIG

Program Integrity Vulnerabilities:

- Services not provided in compliance with state requirements
- Services not supported by documentation
- Services during Medicaid-reimbursed institutional stays
- PCS attendants who did not meet state qualification requirements
- Findings related to billing practices include billing for services not rendered
- Services provided to furnished to ineligible beneficiaries, Services provided by unauthorized caregivers.
- Abuse and neglect of beneficiaries by PCS attendants, resulting in beneficiary harm

Investigative Advisory on Medicaid Fraud and Patient Harm Involving Personal Care Services

*Issued by: Office of Inspector General (OIG),
Department of Health and Human Services,
Washington, DC*

*To: Center for Medicaid and & CHIP, Center for
Medicare & Medicaid Services*

October 3, 2016

 DEPARTMENT OF HEALTH AND HUMAN SERVICES
OFFICE OF INSPECTOR GENERAL
WASHINGTON, DC 20201 

OCT - 3 2016

TO: Vikki Wachino
Deputy Administrator and Director
Center for Medicaid and CHIP Services
Centers for Medicare & Medicaid Services

FROM: Gary Cantrell 
Deputy Inspector General for Investigations

SUBJECT: Investigative Advisory on Medicaid Fraud and Patient Harm Involving Personal Care Services

The Office of Inspector General's (OIG) extensive body of work examining Medicaid personal care services (PCS) has found significant and persistent compliance, payment, and fraud vulnerabilities. With Medicaid growing rapidly¹ and individuals increasingly receiving care in their communities rather than in institutional settings, effective administration of PCS takes on heightened urgency. OIG continues to recommend that the Centers for Medicare & Medicaid Services (CMS) more fully and effectively use its authorities to improve oversight and monitoring of PCS programs across all States. OIG believes that if CMS issues regulations consistent with our recommendations, it will be better able to prevent and detect improper payments, facilitate enforcement efforts, and reduce the risk of beneficiaries being exposed to substandard or otherwise harmful care. This investigative advisory highlights several of the most significant program vulnerabilities related to PCS that OIG continues to encounter during the course of Federal investigations.

¹ Medicaid is the largest health care program in the United States, with approximately 73 million individuals enrolled as of July 2016. Centers for Medicare & Medicaid Services (CMS), Department of Health & Human Services, *Medicaid & CHIP: July 2016 Monthly Applications, Eligibility Determinations and Enrollment Report*, September 27, 2016. Accessed at <https://www.medicare.gov/medicaid-chip-program-information/program-information/downloads/july-2016-enrollment-report.pdf> on September 27, 2016. It represents one-sixth of the national health care economy, and from 2015 through 2024, Medicaid expenditures are projected to increase at an average annual rate of 6.4 percent and to reach \$920.5 billion by 2024. CMS, Department of Health & Human Services, *2015 Actuarial Report on the Financial Outlook for Medicaid*, July 2016. Accessed at <https://www.cms.gov/Research-Statistics-Data-and-Systems/Research/ActuarialStudies/Downloads/MedicaidReport2015.pdf> on August 26, 2016.

SDS in a Changing Environment- OIG

Recommendations:

- 👤 Establish minimum Federal qualifications and screening standards for PCS workers, including background checks.
- 👤 Require States to enroll or register all PCS attendants and assign them unique numbers.
- 👤 Require that PCS claims identify the dates of service and the PCS attendant who provided the service.
- 👤 Consider whether additional controls are needed to ensure that PCS are allowed under program rules and are provided.

SDS in a Changing Environment- CMS

Strengthen Program Integrity in Medicaid Personal Care Services

Issued by: Center for Medicaid and CHIP, Center for Medicare & Medicaid Services

Dec 13, 2016

DEPARTMENT OF HEALTH AND HUMAN SERVICES

CMCS Informational Bulletin

DATE: December 13, 2016

FROM: Vikki Wachino, Director
Center for Medicaid & CHIP Services

Shantanu Agrawal, M.D., Director
Center for Program Integrity

SUBJECT: Strengthening Program Integrity in Medicaid Personal Care Services

Introduction

The Centers for Medicare & Medicaid Service (CMS) and states are taking important steps to support increased access by Medicaid beneficiaries who are aged or have a disability to high-quality home and community-based services (HCBS).¹ These efforts are yielding concrete results: in FY 2014, the majority (53%) of the \$152 billion in federal and state Medicaid spending on long-term care services and supports (LTSS) was spent on community-based supports, reversing a long-standing imbalance weighted toward spending on nursing facility and other institutional care.² To continue this progress, CMS and states have moved forward with implementing recent regulations requiring greater community integration³ and adopting key improvements to managed LTSS⁴.

Like other HCBS services, personal care services (PCS) are intended to enable Medicaid beneficiaries who are aged and those with disabilities to live with as much independence as possible in their homes or other community settings rather than in a nursing facility or other institution. Recently the Office of Inspector General (OIG) issued an Investigative Advisory identifying a number of program integrity vulnerabilities in the delivery of PCS and

SDS in a Changing Environment- OIG-CMS

CMS in Response to OIG findings:

- **Provider Qualifications and Basic Training**
 - In many consumer-directed personal care programs, much of the training can also be provided directly by the beneficiary.
- **Screening of PCS Providers**
 - FMS entity is considered the provider for purposes of screening and enrollment. Verification of Need for Services
- **Documentation of Claims**
 - PCS providers, like providers of any other Medicaid services, must be able to document the provision of services for which they have submitted a claim for payment.
- **Prepayment Edits**
- **Post-Payment Reviews**

SDS in a Changing Environment- OIG -CMS

CMS in Response to OIG findings:

- *The program integrity safeguards that make policy and operational sense in the case of a PCS agency with many clients may not be suitable to an individual beneficiary directing his or her own PCS services.*
- *States are again encouraged to collaborate with their stakeholders, including beneficiary advocates, to determine the methods of PCS delivery and the resulting program integrity protections that will prevent fraud and abuse while still maintaining beneficiary autonomy in self-directed models.*
- *CMS strongly encourages use of self-directed models with necessary supports using a person centered planning process.*

SDS in a Changing Environment- EVV (?)

- 👤 **Electronic Visit Verification (EVV) system**
 - 👤 Section 12006 of the Cures Act mandates that effective January 1, 2019, states must use an electronic visit verification (EVV) system for Medicaid-funded personal care services or face reductions in their federal match. Effective January 1, 2023, states will also be required to use an EVV system for Medicaid-funded home health services or face a reduced federal match.
- 👤 **Missouri currently has 97% of participants using electronic timesheets and documentation** (Currently work to increase the number of participants using the mobile phone application.)

Missouri Overview

- 👤 SDS in all 3 of Missouri's Developmental Disability waivers
 - 👤 13.13% of waiver participants use SDS
- 👤 Budget & Employment Authority
- 👤 Allows for Designated Representative
- 👤 Single Fiscal Management Service
- 👤 Growth in participants every month for 10yrs
- 👤 State DD has Regional Office Structure
- 👤 97% of participants use FMS web portal for time approval and service documentation.

Missouri Growth in Self Directed Supports by Year

**Growth in Self-Directed Supports
Number of Participants by Fiscal Year**

A Brief Missouri History

- 👤 1998 Missouri's State Planning Council(MPC) "*Show Me Change: Building A Participant-Driven System For Missourians With Developmental Disabilities.*" The report concluded:
 - 👤 "*Resources for supports in Missouri must be allocated and expended from a person-centered rather than a provider centered perspective.*"
 - 👤 "*Individuals must be in control of their allocated resources for services and supports and how they are delivered.*"
- 👤 2003 *Independence Plus Grant*

A Brief Missouri History

Fiscal Intermediary Program

Demographics for FY 2003

 81 Families participated in the FI program

 Only 15 Individuals were their own employer.

 Timesheets were entered into State Data System by Regional Office (RO) staff.

 Service Coordinators and sometimes RO staff were responsible for employer & employee enrollment packets.

A Brief Missouri History

- 👤 **2007 RFP for single Fiscal Management Service**
- 👤 **2008 New Fiscal Management Service**
 - 👤 State was no longer collecting time sheets but continued to assist with employer and employee.
 - 👤 SDS was the service delivery model of last resort
 - 👤 SDS not being utilized statewide primarily in regions where were part of Independent Plus Grant.
 - 👤 SDS was not implemented consistently across the state
 - 👤 **FMS completed background screenings**

A Brief Missouri History

- 👤 *2009 Regional Self-directed Support Coordinators*
- 👤 *2009 SDSC Monthly Reports & Goals*
- 👤 *2009 Consultation from National Experts Susan A. Flanagan and Robin Cooper*
- 👤 *2009 Created structure to ensure employee training exemptions are tracked consistently.*
- 👤 *2010 “Got Choice?” Handbook finalized*

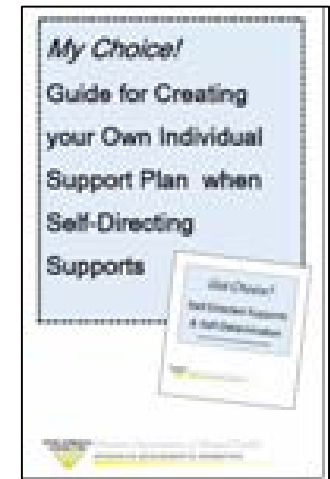

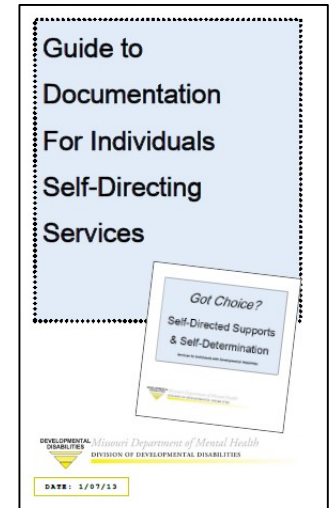

A Brief Missouri History

- 👤 2011 **SDS Improvement Plans**
- 👤 2011 Began to track **Initial Review** done SDSC
- 👤 2011 Consultation from National Experts Sue A. Flanagan for FMS –RFP
- 👤 2012 New FMS Vendor
 - 👤 **Added maintenance of employee training qualifications**
 - 👤 **Added Prepayment edits and monthly reports to identify potential payment issues. (only works if you have a single FMS)**
 - 👤 **Only allow payment if FMS has current authorization.**

A Brief Missouri History

- 👤 **2012 Missouri Medicaid Audit and Compliance (MMAC) Reviews**
- 👤 **2013 “*Guide to Documentation for Individuals Self-Directing Supports*”**
- 👤 **2013 SDS Provider Relations Reviews**
- 👤 **2013 “*Guide to Creating your own ISP when Self-Directing Supports*”**

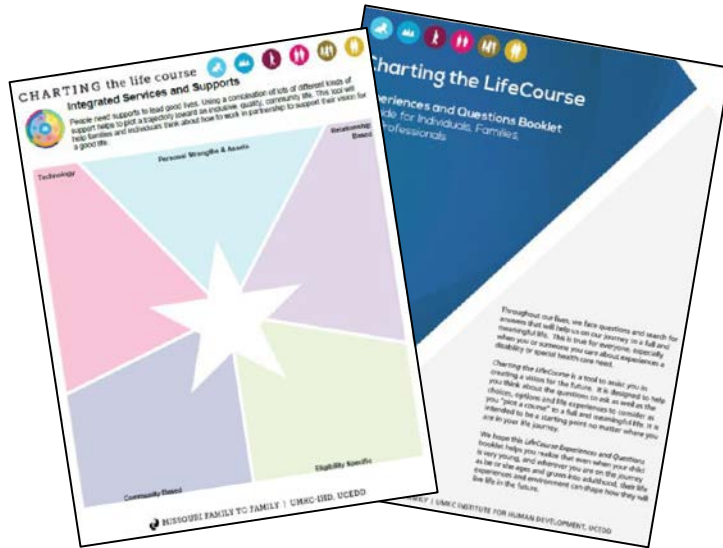

A Brief Missouri History

- 👤 2014 Growing provider capacity for Support Brokerage
- 👤 2014 Department of Labor's Application of the Fair Labor Standards Act (FLSA) to Domestic Service
 - 👤 Economic Realities Test
 - 🏠 Power to Hire & Fire
 - 🏠 Control of Wages
 - 🏠 Control over Hours and Scheduling
 - 🏠 Supervision, Direction and Control of Work
 - 🏠 Provide Equipment and **Mandatory Training**
- 👤 2015 Statewide Individual Budget allocation process.

Steps in Creating the Individual Budget Allocation

👤 2015 Began to incorporate LifeCourse tools into training

LifeCourse tools for individuals, families, and professionals. Are helpful in having conversations about a vision for a good life and how to achieve it.

- TCM Supervisors are then sent detail information for their agency so they can see which of their Support Coordinators are meeting program integrity standards.

SDS-TCM Update
Jan Data Report 2017

INDIVIDUALS AT RISK OF OVER SPENDING
PPI now has a report, which provides information on individuals who are at risk of running out of funds before the end of the Plan year. These are individuals who have a higher % budget spending than the % time lapsed in the authorization period. In other words if the budget is depleted at the current rate of usage there will not be enough \$ for the full plan year. We are developing additional tools to assist Individuals/DR's in understanding managing their budget and employee rate setting. Please note if Individuals/DR are having problems, make sure they are authorized for Support Broker services.

Sikeston Dec 2017 Budget Risk Data

Area	Total Budget	Risk of Over Spending	% at Risk of Over Spending

MISSOURI DIVISION OF DEVELOPMENTAL DISABILITIES

SDS in a Changing Environment Presidents Committee Report

Report to the President 2017

America's Direct Support Workforce Crisis:
Effects on People with Intellectual Disabilities,
Families, Communities and the U.S. Economy

DSP Crisis

- average DSP wages of \$10.72 per hour
- average DSP wages below the federal poverty level for a family of four
- half of DSPs relying on government-funded and means-tested benefits
- most DSPs working two or three jobs
- average annual DSP turnover rates of 45 percent (range 18–76 percent)
- average vacancy rates of more than 9 percent

Factors for Crisis

- high staff turnover;
- growing demand for services due to the growth and aging of the U.S. population in general;
- increased survival rates for people with ID;
- demographic shifts resulting in fewer people moving into the DSP workforce;
- persistently non-competitive aspects of direct support employment, including low wages, poor access to health insurance, and lack of paid time off (PTO) and other benefits;
- high stress and demands of direct support employment, including round-the-clock, seven-days-a-week work;
- insufficient training and preparation for DSP roles; and
- lack of professional recognition and status for skilled DSPs.

Promising practices

- **Expand the use of self-direction so that family, friends and neighbors can be hired as DSPs**
- Promote through technical assistance and financial or programmatic incentives, remote supports, sensors, robotics and smart homes.

Recruiting Workers

- 👤 **SDS is Based on Relationship Support**
- 👤 **It differs in Agency based supports in the it allows individuals and families to more easily integrate the natural support of family, friends or others that they have a relationship with in their community.**
- 👤 **When assisting with finding workings it is importation to map out who the individual currently have in their life.**

Recruiting Workers

'I find our best employees by going to restaurant and if the waitress ask my brother what he want to order (vs. asking me), I ask if they would like a job'

Sister & Designated Representative.

Idea's or Strategies for finding potential employee's.

- 👤 Talk to people you know and people who know you (neighbors, church members, pastors/ministers). Let them know you are looking for help.

SDS in a Changing Environment Agency Based vs SDS Support

Innovative models to leverage the PCA workforce created for agency based supports may not fit well for individuals and families self-directing supports.
