Dear Person-Center Planning (PCP) Participant,

Kathy and I are excited about the upcoming Person-Centered Planning Sessions in your area. We look forward to working with the families, friends, and support people for our PCP focus person. The next few months promise to be exciting and life changing.

Enclosed are sample flyers and invitations that could be used to invite individuals to participate as PCP group members. We have also included an invitation-planning list. It is important to keep a record of the people in your group. We will need a “head count” by the dates listed on this sheet in order to reserve the correct number of meals.

Kathy and I are here to assist you in putting together a great PCP team. Feel free to call us with any questions and/or needs.

Sincerely,

Stacey Ramirez
