Simon Technology Center
Reading and Vision Accessibility in Your Pocket

Webinar

Tues., July 20, 2021
2:00 to 3:00 p.m. CST

To register:

PACER Center
PACER.org/workshops

Smartphones and tablets have built-in features that can help with reading and seeing what is on the screen or in the environment. This presentation will introduce a sampling of accessibility settings in Apple and Android mobile devices that assist with reading and seeing.

If an ASL interpreter is needed, contact PACERWorkshops@PACER.org with 48 hrs. notice.
