

IDEAL RRTC Disability Webinar Series

Exploring the Intersections of Person and Place: Healthy Aging for Adults with Long-Term Physical Disabilities

Thursday, July 14, 2022, 2:00 - 3:00 p.m. Eastern Time

Registration link: bit.ly/JulyRRTC

Communication Access Realtime Translation (CART) services will be available

Description

Please join us for an interactive, dynamic conversation about healthy aging for people with long-term physical disabilities. Our interdisciplinary panel of experts includes those with lived experience. Together, they will consider the importance of environmental factors, such as the built, attitudinal, and policy environments. They will discuss high-priority concerns of people aging with disabilities, such as housing, social disconnectedness and isolation, and home and community-based supports. These experts will also focus on how individuals and communities can take steps to enhance outcomes. We invite you to participate by including your questions for the panelists on the registration form and during the webinar itself.

NIDILRR Statement

The content of this webinar has been developed under a grant from the National Institute on Disability, Independent Living, and Rehabilitation Research (NIDILRR #90RTHF0001). NIDILRR is a Center within the Administration for Community Living (ACL), Department of Health and Human Services (HHS). The content of this webinar does not necessarily represent the policy of NIDILRR, ACL, or HHS and you should not assume endorsement by the Federal Government.
